Marketer's Primer Series: Greening Print Marketing

Terms and Conditions

Single-user License: The single-user license is designed for the use primarily of one individual. It is not to be distributed to multiple individuals inside or outside an organization.

Single-site Distribution License: Designed for single-site printers, marketers, and other producers and users of these technologies who want to use the report as an internal educational tool. The single-site distribution license entitles purchasers to internal distribution via print or Intranet to employees for the purpose of education. This license does not grant the purchaser permission to resell the report.

Multi-site Distribution License: Designed for multi-site printers, marketers, and other producers and users of these technologies who want to use the report as an educational tool. The multi-site distribution license entitles companies with multiple sites to internal distribution via print or Intranet to employees for the purpose of education. This license does not grant the purchaser permission to resell the report.

Vendor and Association License: Vendor and association license entitles vendors of hardware, software, and other technologies to distribution of the report to their employees via print or Intranet for the purposes of education or to distribute the report on a *single-user basis* to customers or members for the purpose of education. If those customers and members wish to re-distribute the report within their organizations, a separate single-site or multi-site license will be required.
